Armor Basic Officer Leader Course

July 2020

INTRODUCTION

The purpose of the course is to provide Commanders in the field with Armor Leaders trained in the fundamentals of tank and platoon weapon systems and capabilities, maneuver, tactics, and instill in them the warrior spirit, preparing them to assume leadership of a mounted platoon.

During the 19 week Armor Basic Officer Leader Course, the Armor officer will receive training in the following subject areas:

Foundational: During Block I, lieutenants will receive appropriate training in accordance with AR 350-1 and the CCTL.

Technical: During Block II, lieutenants must: employ platoon movement formations and techniques; operate within the capabilities and limitations of the combat platform; integrate, and control organic direct fire control systems; manage platoon property IAW the Command Supply Discipline Program (CSDP; conduct maintenance IAW the Command Maintenance Discipline Program (CMDP); plan, prepare, and execute platoon-level sustainment operations such as: fuel, fix, arm, and resupply.

Tactical I: During Block III, lieutenants must: pass a record APFT; communicate effectively, orally, written, doctrinally, graphically, and digitally; plan and prepare offensive, defensive, and reconnaissance and security operations; conduct intelligence preparation of the battlefield; analyze and apply the effects of the mission and operational variables to a mission; plan, integrate, and control indirect fires; demonstrate knowledge of combat vehicles, equipment, and weapons capabilities and their application in combat (friendly/threat).

Tactical II: During Block IV, lieutenants must: lead a platoon under combat conditions; demonstrate situational understanding and agility in adapting to changes within a complex operational environment; conduct Troop Leading Procedures (TLPs) at the platoon level; analyze and apply Relative Combat Power Analysis (RCPA) to achieve a tactical advantage; conduct platoon missions in the context of a Decisive Action Training Environment (DATE).

PURPOSE OF THIS SYLLABUS

This syllabus is designed to make you aware of the learning content you will be presented and assist you in the educational process by providing you the tools to plan and effectively prepare yourself physically and mentally as you progress through ABOLC. It provides you many resources to assist in being prepared for class each day.

Chapter 1 provides the description of the course.

Chapter 2 provides information for the course administration and syllabus.

Chapter 3 provides the flow of lesson plans within the course. The MTS provides the training for each day of the course. It provides times and locations along with the subject that will be covered during that time period. Instructors and students are required to be prepared. Delivery of Material is provided to assist you in understanding the learning process used by this course.

Any deviation from the time, material, or location require approval from the 316th Cavalry Brigade Commander.

Chapter 4 provides the lesson assignments by lesson plan ID. These ID's are located on the MTS from Chapter 3. The lesson plan layouts the material that will be covered during that block of instruction along with reference material and any study assignments that are required. Each lesson plan assignment provides the Terminal Learning Objectives (TLO) which is the overall purpose of each lesson. LSAs provide you the requirements that must be met to achieve the overall purpose. All references should be verified by the instructor and yourself to stay current with Army requirements. The references listed were accurate as of this writing. It is the responsibility of instructors and the students of this course to verify references throughout the course and your career as an Army Officer.

Your success in this course is paramount to the Army. Training here will provide you with the tools needed and required to be successful. It is your responsibility to do your best in preparing to be a successful Armor Officer.

Chapter 1: Course Description

1. Title: Armor Basic Officer Leader Course.
2. Course Number: 2-17-C20B
3. Course Outcomes: A 19 week training program that produces Armor Lieutenants who are bold, aggressive, resourceful and adaptive leaders - capable of leading Tank Platoons in any environment. An ABOLC graduate can make decisions, direct, lead and assess operations effectively at the platoon level. Our lieutenants are proficient in doctrinal, technical and administrative tasks associated with the tank platoon. Fit and self-disciplined, the Armor lieutenant is knowledgeable in the art and science of Armor and Cavalry formations, employing weapon systems and integrating assets to close with and destroy the enemy. ABOLC graduates are able to operate within the commander's intent to accomplish all specified or implied missions. They can plan operations and understand how to incorporate their PSG and Tank Commanders into their troop leading procedures. They can analyze tactical situations, disseminate and filter information, and employ the full capabilities of the platoon's equipment. Well versed in enemy organizations, doctrine and equipment, the ABOLC graduate can comprehend mission and commander's intent during decentralized operations to fight and win on the battlefield.
 - a. Able to lead Soldiers across a range of military operations. A leader of character who is able to understand, visualize, and describe his/her operational environment; make and articulate decisions, and direct, lead, and assess operations at the platoon level.
 - b. Demonstrate adaptability (resilience): a comprehensively fit, self-disciplined officer, who pushes past pre-conceived limits, thrives in chaos and perseveres, despite obstacles.
 - c. Demonstrate technical proficiency: demonstrates proficiency in doctrinal, mechanical, and administrative tasks associated with a tank platoon.
 - d. Demonstrate tactical proficiency: demonstrates the science and art of organizing an Armor formation, employing weapon systems and integrating assets to defeat the enemy.
4. Location: Bldg. 5145 (Patton Hall), 13th Armored Regiment Rd., Ft. Benning, GA 31905.
5. Duration: 19 Weeks.
6. Entry Prerequisites: Armor (or branch detailed armor) officers from United States Military Academy-West Point (USMA), Reserve Officer Training Corp (ROTC), Federal OCS, or State OCS commissioning source; United States Marine Corp (USMC) officers on assignment instructions (AI) to a tank battalion; allied officers commissioned into armor, cavalry, or mechanized branch.

Chapter 2: Course Administration

Section A: Syllabus management.

1. Syllabus Interpretation. This syllabus is a tool to assist in your preparation of each lesson plan attached to the ABOLC Program of Instruction (POI).
2. If there is a conflict between this syllabus and the Course POI, the POI takes precedence.
3. Syllabus Review: ABOLC conducts syllabus reviews on an annual basis or as directed by the 316th Cavalry Brigade Commander to ensure it remains synched with the Program of Instruction and associated Lesson Plans. Instructors and students will share the responsibilities of ensuring all information is up-to-date in the syllabus. Both the Syllabus and Lesson Plans are living documents that must be updated to ensure relevant information/material is provided.
4. Syllabus Content.
 - a. Updates: Subject Matter Expert (SME) are required to review the Syllabus and associated lesson plans prior to each lesson to ensure the depth of learning activities and their associated learning objectives are achieved.

Section B: Training Management.

1. Subject Matter Experts (SME) Responsible Agent Responsibilities: The Commandant of Armor designates the 2-16 Squadron Commander as the SME. The SME is responsible for executing training to the standards outlined in the lesson plans and Training Support Packages (TSP). Prior to course start, the SME approves the class schedule and flow of events based on that classes start date using the Master Training Schedule and prescribed academic training time as a baseline.
2. Course Standards: Students must achieve the academic standards as outlined in the Individual Student Academic Plan (ISAP) dated 22 April 2020 (See the Master Training Schedule (MTS) for information on examinations and dates.) Students are expected to actively contribute to practical exercises.
3. Course waivers/ETPs: All course and class changes must be coordinated with, and approved by the appropriate authority to ensure there is no impact to our long-term training requirements. SME will submit a request to waive any training not in accordance with the validated course POI within 48 hours of class start (i.e. resource requirements such as, instructor to student ratio, equipment to student ratio, vehicle shortages, weapons, automation, ammo shortages, facility, range and training area shortfalls).
4. When available, ABOLC will make available guest lectures to augment course material. The guest lectures provide additional depth and insight from experience and leadership roles.

Note: Students will participate in three Peer to Peer Leadership Feedback Surveys (171-ORLAB014-LSA 7. Perform Peer Assessments)

Assessment schedule:

Block 2 Peer Evaluation: Training Day 39/40

Block 3 Peer Evaluation: Training Day 65/66

Block 4 Peer Evaluation: Training Day 90/91

Section C: Delivery of the Material.

1. The following method is used to deliver learning material.

Step 1: Students read and perform homework on material for next class day.

Step 2. Facilitators use questions to facilitate peer-to-peer discussion.

Step 3. Execute Vignettes, Case Studies, and PEs to reinforce self-study and peer-to-peer learning.

Step 4. Facilitators use PowerPoint to provide clarification of material. Should not require a deep dive review if the first three steps are executed properly.

Step 5. Measure Soldier/Facilitator success.

Chapter 4: Lesson Descriptions and Assignments

Section A: Lesson Descriptions

1. Students are responsible for reviewing all lesson plan materials. A lesson is a segment of instruction that facilitates the accomplishment of learning step activities that lead to a specified Terminal Learning Objective (TLO). During a lesson, learners are taught a particular subject or how to perform a particular activity. A lesson provides the instructional content for a lesson plan.

2. Enabling Learning Objectives (ELO) provide the prerequisite skill(s) and/or knowledge required to achieve the TLO. They are the supporting learning objectives identified in the task/competency analysis. ELOs describe the component action, skill, or knowledge that the Soldier must learn before achieving mastery of the TLO.

3. Learning Step Activities (LSA) are the performance steps of learning to achieve for an ELO or TLO.

4. Student Study Assignments or homework are defined as follows:

a. **Study** - Master the details of the subject and fix them in your mind through application of the study process (survey, question, read, review, and recite). Prepare to test on the subject (orally, written, and/or performance).

b. **Read** - Be proficient in the subject for discussion in the classroom. Prepare to take one or more practical exercises on the subject (orally, written, and/or performance).

c. **Scan** - Be familiar with the topic(s). Read the topic sentence of each paragraph. Prepare to participate in checks on learning during classroom discussion (orally, written, and/or performance).

d. **Review** - Review is used for material previously discussed in class. Review all notes, Advance Sheets, and any material related to the class as applicable.

Chapter 5: USAARMS COMMANDANT'S READING LIST

As Armor Leaders developing a course of personal study is essential to self-development. Each of us must improve our minds through reading and critical thinking, to ensure we're armed with the ability to solve the tough problems that we will face now and well into the future. The Army operates in a complex operational environment that requires every leader to improve their knowledge of not only military affairs, but economics, politics, and international affairs.
